

A moving juggler,
moves clockwise in
outer ring,
counterclockwise
in inner ring,
passes in 8 count
to non-moving
juggler on their left

A non-moving
juggling, passes in 4
count, alternates
passing to the
moving juggler to
their right and the
non-moving juggler
straight ahead

There are two lanes of
passing in this pattern,
the blue line show the
first lane

The pink lines show
the second lane

The pattern is
only 8 beats
counting both
hands. Moving
Jugglers pass
once in their
initial postion
then have 3 right
handed selfs go
to the position of
the juggler on
front of them.
They should
move right away
to avoid the
passing of the
non-moving
jugglers.
